

Baler HSM12

The high-performance baler for large-volume waste material. Can be used for cardboard, paper, plastic film and other packing material.

Advantages:

- Ideal baler for all applications with wear-resisting electro-hydraulic drive
- Easily transportable bales
- A bagging device can be supplied upon request
- High throughput performance due to large loading aperture
- Push-button control
- Automatic return stroke
- Retaining claws
- Press ram on roller bearings
- Piston rod hard-chrome plated in series
- Complete bale ejection due to complete stroke of press ram
- Quik and easy 3fold strapping with endless Polyester tape (500 m reel)
- Mobile on castor rollers

Technical data		HSM12 Standard	HSM12 Gigant
Pressure	(Ton)	12	14
Compression time	(sec)	22	28
Motor	P = (kW)	5.5	7.5
	U = (Volt)	400-3 phase	400-3 phase
Exterior dimensions	(mm)	3510x970x970	4300x1030x1630
Machine weight	(kg)	780	1280
Loading aperture	(mm)	1100x800	1200x800
Max. bale size	(mm)	600x800x600	900x800x600
Bale weight	(kg)	70 – 90	110 - 150
