

Glass crusher

The Glass crusher is a one shaft fast turning machine. The friendly using machine is suited for the crushing of different glass products. The glass bottles and jars are being crushed by fast turning pins and granulate by the rotor. The advantages of using this machine will be: Ca. 80% volume reduction, reduction of storage and transport cost, ordination and cleanness, friendly using and saving of time.

Technical specification:

Power	:	0,37	[kW]
Tension	:	220 Vac, 50	[Hz.]
Connector with cable	:	1½	[m]
Weight	:	45	[Kg]
Dimension Glass Crusher:			
Height	:	1000	[mm]
Width	:	400	[mm]
Deep	:	600	[mm]
Feed opening	:	ø 115	[mm]
Material	:	Stainless Steel	
Container	:	Plastic crate	
Dimension crate:			
Height	:	230	[mm]
Width	:	290	[mm]
Deep	:	400	[mm]

suitable for:

The machine is suited for glass bottles and jars with the maximum dimensions of ø115mm, length 400mm.

Remark:

Not suitable for plastic bottles and cans

Operation:

To crush you have to open the cover and push the bottle or jar through the protecting rubber into the machine. The glass crusher will be activated by closing the cover. After 15 sec. the machine will automatically switch off. The granulate will be collect into a plastic crate.
